WORK EXPERIENCE

Keppel Ltd., IT Project Management Intern (Incoming) **Jan 2027 - May 2027**

- Expected to support enterprise IT project planning, progress tracking, risk management, documentation, and stakeholder coordination alongside project managers.

SATS Ltd., MLOps Intern – AI Solutions/Data Science **May 2026 - Nov 2026**

- Developed and maintained Azure-based AI/automation solutions, working with Azure Blob Storage and other Azure services to support data and document processing workflows.
- Built and refined LLM-based data extraction and validation workflows for flight and billing processes, using Power BI for basic data analysis and validation.
- Created technical documentation, user guides and UAT materials, while working with internal stakeholders to clarify requirements, validate solutions and support adoption.

Iconz-Webvisions Pte. Ltd., Technology & Solutions Intern **Jun 2025 - Aug 2025**

- Worked on integration to bridge CRM data with Xero, replacing a legacy accounting system with automated sync for companies, invoices, and products
- Implemented secure Xero OAuth 2.0 login, token storage, and tenant selection using CodeIgniter and the Calcinai PHP SDK
- Built admin dashboards with DataTables, role-based access control, and enhanced logging via Monolog for system transparency

PROJECTS

Parkourse - NUS CFG x Garena Ultimate Hackathon 2026 **Sep 2026 - Oct 2026**

- Designed and developed a competitive Roblox parkour-race game featuring 5 race maps, 16 obstacle types, four-player matches, and unique movement mechanics
- Designed the game concept and match flow, created 3D assets and animations, and shaped the UI and soundtrack. Developed features including the lobby, sandbox, bot matches, progression, and mobile controls.
- Game

NUS - SLA Project (IS4108): AI Property Smart Search **Aug 2025 - Nov 2025**

- Collaborated with Singapore Land Authority (SLA) as an industry partner to design and develop an AI-powered property smart search web application; Achieved Grade A
- Integrated LangChain + Azure OpenAI to enable natural language property search and personalized recommendations
- Built end-to-end full-stack features from API design to UI implementation
- Demo Video

Jolliville - Gamified Mental Wellness Web-app **Mat 2025 - Apr 2025**

- Developed a full-stack wellness platform using Next.js, React, TypeScript, Express.js, and Supabase, featuring journaling, wellness exercises, and an interactive gamified village.
- Integrated the OpenAI API for an AI companion and implemented Supabase authentication, protected routes, and persistent conversation history.

Telegram Bot - Quick Word Guessing Game **Dec 2024**

- A Telegram GameBot meant to be played in a group chat with other users. @GuessMyWord_GameBot

Hotel Reservation System – Jakarta EE **Oct 2024**

- A Jakarta EE-based Hotel Reservation System using Apache NetBeans, implementing a multi-tiered architecture to support hotel reservation operations through a command-line interface (CLI)

Dungeon Luncheon - 2D Rogue-like Shooter Game **May 2024 - Aug 2024**

- A 2D Roguelike shooter made with Unity and C# with original drawn sprites/animations using Aseprite
- Attained achievement of Apollo 11 in NUS' Orbital Project course (2024)
- Project README | itch.io Game Link
